

# DVT Prophylaxis System

- Clinically Proven Efficacy
- Improved Patient Compliance
- Lower Cost Per Patient

The light-weight venous compression system clinically proven to reduce the risk of DVT

The Advantage 610 is the cost-effective, reliable and clinically proven intermittent pneumatic compression system that hospitals across the country have come to depend on. The work horse of the industry, the 610 provides years of trouble free operation and a list of sought after features, including:

- Lightweight, rugged and easily transportable
- Quick-connect tubing
- Tubular, single-unit designed sleeves with patented safety vent slip easily over patient's calves
- Whisper quiet performance
- Easy-to-read digital display
- Automatic pressure regulation
- Convenient bedrail hanger
- Visual and audible alarms that trigger automatic shutdown if a problem arises
- One of the best two year warranty in the industry
